PREMIER EARLY "XTRA TENDER RUST RESISTANT" (PEXTRR) SWEETCORN

PRM 13 weeks after sowing. PEXTRR has a 20cm long, very uniform, well filled, blunt ended cob with excellent husk tip cover. The cobs have a very short shank making them extremely easy to snap pick, thereby retaining their very attractive dark green coloured husk. this allows a high yield of top quality cobs. the seed has a dependable high germination, excellent vigour and large sized seed.
